

Dear Partners,

The European Institute Pro Futuro Europae is cordially inviting you to join us in the design and organisation of a fantastic project called “**Entrepreneurial Skills Academy**”.

Entrepreneurial Skills Academy Training Course is a project jointly designed by members of several youth NGOs across EU and targeted at leaders of youth organisations and young entrepreneurs to improve their skills and master their their capacity in the field of youth employment programmes and youth entrepreneurship. Its aim is to provide youth leaders and entrepreneurs with applied knowledge on how to spark an entrepreneurial spirit among young people and how to run quality youth projects, which could revert the negative trend of youth unemployment in Europe. The first objective reaches out to youth NGOs and entrepreneurial incubators, far beyond the limited number of Entrepreneurial Skills Academy participants. However the second objective is to contribute to the self-development of the Academy’s participants themselves. The course, run by 30 participants from 10 EU countries, will be open to young people from the Upper Silesia region offering selected items of the agenda to a wider public. Inter-generational partnership with experienced entrepreneurs from the Silesian Chamber of Commerce will enrich mostly non-formal working methods aimed at unleashing creativity and innovation in youth work. As a result quality youth projects on youth employment will be developed by the NGOs represented, young people’s entrepreneurial ideas will emerge and for their proper implementation sustainable partnerships will be established.

The project will be undertaken in the framework of Action 4.3. of the EU Youth in Action Programme (Training Course). It is the result of the partnership building activity run by us this October, where major organisations from a few EU countries developed this idea together.

Please join us in this undertaking. Your interest and commitment is mostly welcomed. Should you be interested in this project please send us an e-mail and fill in the enclosed Part III preliminary agreement, sign it and stamp it, and fax it back to us under the number: + 48 123 767 919.

We are especially looking for partner organisations from Scandinavian countries, and Baltic countries as well as France, Switzerland, Austria and Germany. Please hurry up as the deadline for sending the part III agreement is this Monday, 31 October by midnight!

Best regards,

Piotr Uhma
President, European Institute Pro Futuro Europae
